

# Thinking Matters

growing effective learners

*"For me it was the best CPD  
I have had in my career."*

Hertfordshire Secondary School

# Deep Dive

CPD/Training

## Deep Dive CPD are in depth workshops in the fields of cognitive development, neuro-science and intelligent learning behaviours.

They are delivered by trainers who are specialists in translating the theory of these areas into effective classroom practice. The purpose of each workshop is to equip teachers with a richer level of understanding of how to promote successful thinking, knowledge absorption and learning behaviours within their students.

Bespoke to your schools' context and requirements and delivered in your school.

### Course Titles:

- Mastering Metacognition
- Cognitive Coaching
- Metacognitive Visual Tools
- Motivation Matters
- Deliberate Thinking Practice
- Optimising Memory
- Philosophical Enquiry
- Engaging Learners
- Thinking and Ofsted
- Coping with Pressure

*"Fantastic training. A fascinating exploration of ideas and the activities allowed us to come away with lots of practical ways for our pupils to improve their memory."*
