

## The Memory Forge:

# *Mastering Classroom Knowledge Retention*

### *Target Audience:*

**On-Demand Course:** Individual teachers, coaches, and tutors looking for immediate, actionable CPD.

**Hybrid On-Demand Course:** Heads of Department, Lead Coaches, and School Leaders wanting tailored implementation strategies.

### *Content:*

**Fix the cognitive bottlenecks that stop your students from remembering what you teach...** You taught a brilliant lesson on Friday. They understood it perfectly. But by Monday morning, they look at you blankly. We've all been there, but the problem isn't your teaching, it's their cognitive architecture.

The Memory Forge is a focused, on-demand masterclass that gives educators a powerful, cognitive-science-backed approach to cementing knowledge. It strips away academic jargon and translates it into highly practical classroom strategies that embed what you are teaching.

### *Format:*

#### On-demand Course Structure and Hybrid On-demand

- Once you have registered you will receive access to our learning platform that contains all the micro videos for each module of the course.
- At any time to suit you, work your way through the on-demand modules.
- For the Hybrid On-demand version, you can book a 30 minute, one to one session with one of our cognitive coaching team to explore and review the content and its practical application.
- Each module includes a range of learning activities. These include taking self reflective inventories to measure participants current levels of motivation and metacognition.

### *Certification:*

Participants will receive a TM certificate on completion of the course.

### *Course Details:*

#### On-demand & Hybrid On-demand Course

- **13 bite-sized, actionable video lessons** - totalling over an hour to digest at your own pace
- **A Clear Mental Model** of how we learn and retain information
- **The Attention Spotlight:** An understanding of how to engineer true focus

- **The 3M Game:** The ultimate cognitive cheat code for how to cement knowledge

**EXCLUSIVE BONUS:** *Included free with your enrolment.* A Student Revision Toolkit: 'Done-for-you'. Don't just change how you teach; change how they study. You will receive a comprehensive, student-facing guide that translates these cognitive principles into a practical revision system. Hand it straight to your students to teach them exactly how to build schema, use Cornell Notes, and fight the forgetting curve - saving you hours of prep time.

### *Cost:*

**On Demand Course:** £79 (+vat)

- Full lifetime access to the 1-hour video masterclass, downloadable PDF workbooks, and the Student Revision Toolkit.
- **Best for** individual teachers, coaches, and tutors looking for immediate, actionable CPD.

**Hybrid On Demand Course:** £149 (+vat) Everything in On-Demand Course **PLUS:**

- 30 min 1-on-1 online session with the course author to discuss your specific classroom challenges.
- **Best for** Heads of Department, Lead Coaches, and School Leaders wanting tailored implementation strategies.

**Included free in both editions – The 'Done-For-You' Student Revision Toolkit –** You will receive a comprehensive, student-facing guide that translates these cognitive principles into a practical revision system. Teach students exactly how to build schema, use Cornell Notes, and fight the forgetting curve – saving hours of prep time.
